

The birth of Zoom A is the result of smart partnership between the Council of Malaysian Headmasters and One Touch Education Sdn. Bhd. in line with the new education policy in the implementation of smart school through out the nation.

Zoom-A was officially launched on 20 July 2004 at Grand River View Hotel, Kota Bharu by the honourable Dato' Mahadzhir bin Mohd Khir, Deputy Education Minister of Malaysia.

This programme receives full support and consent from The Chief Education Director , Ministry of Education Malaysia.

Among the many advantages Zoom-A has to offer:

- a) Zoom-A, can enhance teaching and learning process in line with the motto of The Ministry of Education "Pendidikan Berkualiti Generasi Bestari".
- b) Zoom-A can sustain the effort made by the government to strengthen National Schools through e-learning to meet globalisation.
- c) Zoom-A can optimise the use of computer labs and to narrow down the digital gap between the rich and the poor.
- d) Zoom-A can be the platform in creating an environment that deploys ICT, among teachers and students to face the new era of globalisation and challenging career world.
- e) Zoom-A upholds the National Education philosophy in moulding good values among the citizen of Malaysia.

It is hoped that through this noble effort, all students from Year 1 to Year 6 can fully benefit from this programme, apart from adopting Zoom-A as the core software in the utilisation of computer labs in school.
